Who we are: Essex County Mental Health's vision is to be a trusted leader in mental health well-being by collaborating with an array of community partners to strengthen, health and empower our community members. We provide a safe and accessible pathway toward emotional, behavioral, and psychological health and well-being. We are about recovery!

What we do: We provide outpatient counseling, psychiatry, crisis and case management services to residents of Essex County from ages 0-100+. We deliver services in-person and through use of telehealth systems at our main office, within many Essex County schools, and adult-services satellites in Ticonderoga and Lake Placid.

Contact Person: Our main office is located at 7513 Court Street, Elizabethtown, NY 12932. Please call for more information at 518-873-3670 from 8:00 a.m. to 5:00 p.m. Our crisis services can be accessed 24/7 by calling 888-854-3773.

Is a referral needed? A referral form is not needed, but we have a referral packet that will be required to be completed when registering for services. Also, a referral source should obtain a Release of Information between the referral and Essex County Mental Health. Without a signed Release of Information in place, ECMH is unable to provide feedback on the referral's follow-through.

Registration Forms can be obtained at
